Paul Schulz presents:

**Advanced Ambulatory Workflow - New Technology Supporting The Culture Of Innovation**

Sponsored by: Sonitor and Eide Bailly
Wednesday, May 22, 2019, 2:00pm ET

PRESENTER: PAUL SCHULZ

Paul Schulz, BA, BS, Manager of Health Care Consulting at Eide Bailly is external project lead working with the different vendors and providing Altru with RTLS opportunities and next steps. Paul focuses his time to help deliver operational analytics and opportunities for improvement. Paul has been working with RTLS for the past five years and is a health process improvement consultant.

WEBINAR AGENDA: This 60-minute webinar will feature a team of experts from Altru Health Systems who will present how they utilize Real Time Location Services (RTLS) technology in the ambulatory setting. Altru’s team will share how they use RTLS hardware, software and analytics to improve patient workflows in primary and specialty care clinics. Important elements will cover how they leverage the platform to supply notifications and alerts to positively impact patient flow and the data to understand improvement opportunities and spark innovative ideas from the care team. This session will be from a provider’s point of view, as well as a clinic manager and IT implementation perspective. Real time location services are positively impacting workflow, phase of care innovation and offering patients and staff the opportunity to understand locations, and if needed; assistance. Join us as we progress through a panel discussion to hear their experiences, challenges and opportunities. Paul Schulz, Healthcare Consulting Manager at Eide Bailly will be our moderator for the discussion.

PANEL:
Dr. Makarem, Internist, Chair Internal Medicine, Altru Health Systems. Dr. Makarem practices internal and family medicine as well as his role to elevate the EPIC EMR system at Altru Health System. He helps lead the primary care team on both campuses and is integral with care initiatives at Altru Health System. From the beginning he has championed the RTLS technology and the primary care clinic and continues to provide his insight and ideas as data is presented.

Rhonda Enger, BSN, RN, Practice Manager of Advanced Orthopedics is the manager of the first care team to integrate RTLS into the environment. Her knowledge of the system now expands 4 years and her experiences and leadership are on display as she works with her team and specialty care providers when it comes to the patient experience and flow.

Jessica Irion, MT,MS, is a System Analyst and project lead for the RTLS and other IT initiatives at Altru. She is instrumental and a constant link of the RTLS system for new applications, system deployment and uptime. Jessica works with care teams before, during and after system implementation and is the primary contact with Eide Bailly who provides system data visuals for analysis.

Sam Olson, BA, Senior Associate of Eide Bailly focusing on Business Intelligence development for organizations wanting to gain better visualizations and improved access to data and analytical processes.
Webinar Wednesday would like to thank our sponsors Sonitor & Eide Bailly!

Sonitor is the leading provider of unique, ultrasound-based Real Time Location System (RTLS) solutions linking the physical world with the Internet of Things (IoT) to provide real-time visibility and connected intelligence. As the first - and only - company to use proprietary ultrasound technology as the primary technology for indoor positioning systems (IPS), Sonitor's platform automatically tracks the real-time location of moveable equipment and people with 100% room or sub-room level accuracy in complex, indoor environments, such as hospitals, clinics and ambulatory surgery centers. With an open integration platform, Sonitor provides the flexibility to leverage best-in-class software application solutions covering many uses such as nurse call, patient flow, workflow and capacity management, hand hygiene and infection control and asset and inventory management. For more information please visit www.sonitor.com

PROFESSIONAL OF THE MONTH
Chuck Martoglio
Ultrasound to Classic Rock
BY K. RICHARD DOUGLAS

That machine work as the manufacturer intended it to. Is trained to work on automobiles would have the skill set to transition whether you work on cars or medical equipment, there are a few. That is exactly what Chuck Martoglio did. Martoglio is a field service specializing services department at BayCare Health System, which is based out of 23 years. I was in need of a career change, but had no idea of what I wanted to do. One day, a friend of mine who is a respiratory therapist mentioned but looked into it. The more I researched it, I was looking for. I found and joined the Area Association of Medical Instrumentation (BAAMI), and went to a meeting to overwhelmed by the support I received that night, Martoglio says. One of the BayCare hospitals. Not only did he answer all of my questions, he was hooked. The caliber of people I invited me to the shop to check it out. I “I met David Booker, a manager at work with in all areas of the hospitals continues to make me thankful I made the change,” he adds. Profession into HTM meant some additional specialized training. Martoglio was able to go to school and receive hands-on experience at the same time. College and graduated with an A.S., he says. To work in Dave’s shop as a volunteer. I meeting, and landed a part-time PM tech position there. These opportunities were extremely valuable experience while I was in school, Martoglio says. After BayCare. I was promoted to a biomed II

FAVORITE BOOK
“The Romance of Photogen and Problem solving/troubleshooting ability and knowing that a patient will receive the care they need. I also like working begin their careers off right.”

SUBMIT YOUR NOMINATIONS FOR Professional of the Month

We’d love to feature you or your colleague in one of TechNation’s monthly features! Send in your nomination for Professional of the Month!

1. Think of a Biomed/CE Professional who deserves appreciation.

2. Visit 1technation.com/nominations and fill out the nomination form.

3. We will contact you for additional information if your nomination is accepted!
